

Work happening in your area

You may see our contractors in the area as we continue ground investigations for East West Rail (EWR). This work is crucial to help us understand the soil, rock and groundwater below the surface so that we can design the railway in a responsible and environmentally sustainable way.

The team will be adhering to robust health and safety procedures and will work hard to minimise any disruption to communities.

Get in touch

If you have any questions about ground investigations in your area, please contact a member of the EWR team:
